Sir,

With reference to your letter No. G.38/Med.107-26, dated 21-6-1926, on the subject of charging for coffee supplied to patients in Hospitals, I have the honour to state that the majority of the Medical Officers in charge of the institutions in theState, who were consulted in the matter are of opinion that coffee and bread is supplied to patients not as a luxury but as part of the nurishment and that the same cannot be done away with unless something else is substituted therefore, viz., pure milk, in which case the cost will not in any way be reduced and that it is not given as luxury. Charging for coffee alone, besides seeming anomalous, will operate as a great hardship on the poor patients, while those patients whose income is Rs 50/- and above, admitted into the Hospitals in Bangalore and Mysore Cities and the Kolar Gold Fields area, where, after all, the in-patients treated are the nighest, are charged as per sanctioned rates, which include cost of medicine, diets, etc., The expenditure in the other District Head Quarter Hospital on this account may be said to be negligible when compared with the expenditure in the major Hospitals in the two cities and the Kolar Gold Fields.
